

Thermoid Alarm Booster™ Hose

Maintains Flow When You Need It The Most

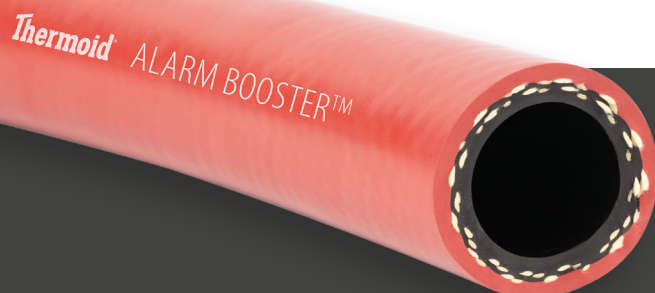

Thermoid manufactures Alarm Booster™ Hose, a premium, multi-purpose firefighting booster hose designed for demanding conditions and rapid response. Built with an abrasion-resistant outer layer, this hose offers exceptional durability and effortless maneuverability—perfect for fast, aggressive fire suppression. The stable construction of the hose ensures it retains its shape, preventing flattening or collapse when stored on reels.

KEY FEATURES

- **High Pressure and Safety:** Reinforced with a stable tube capable of withstanding up to 800 psi (¾" & 1") and 250 psi (1½").
- **Durability and Flexibility:** Durable cover resists wear, while low drag surfaces allow for easy handling during firefighting operations.
- **Compliance**
 - **NFPA 1961:** 1" & ¾" 800 psi hoses are manufactured to meet NFPA 1961 standards
 - **Coast Guard and UL 92:** 1½" Red 250 psi hose is designed to meet Coast Guard and UL 92 requirements
 - **MIL-SPEC:** 1½" Black 250 psi hose is designed to pass MIL-SPEC MIL-H-24580 specifications
- **Packaging Options:** 1 ½" hoses sold in reels. 800 psi 1" and ¾" hoses available on reels or cut length.
- **Ready to Couple:** Ready to be fitted with your preferred couplings.
- **Trusted Heritage:** Thermoid, established in 1883, manufactures hoses at ISO 9001 certified plants in Ohio and Tennessee. Thermoid is a proud NAHAD member.
